EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: The abstract has been deleted and replaced with the following new abstract.

-ABSTRACT

A process for the loading of fuel into an aircraft on the ground. According to the invention, an optimal position cGt of the center of gravity of said aircraft is aimed for by adjusting the weight of fuel poured into the tail tank.-

The abstract has been amended to correct the errors.

The following is an examiner's statement of reasons for allowance: The prior arts fail to show a process of loading fuel into the aircraft on the ground for the optimal position of the center of gravity. The fuel is poured into the tail tank and the wing tank so that the optimal position is achieved. The prior arts fail to show such steps as claimed in the invention.

Please note that the examiner interprets "it" in claim 1, line 5, to clearly mean "the loading of fuel into an aircraft on the ground".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tien Dinh whose telephone number is 703-308-2798. The examiner can normally be reached on 9-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Jordan can be reached on 703-306-4159. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
